Subject: Letter of Recommendation

To Whom It May Concern:

It has come to my attention that Jeffrey Daughtry is applying for a position with your organization. I am an active duty Warrant Officer and Army Criminal Investigation Command Special Agent, and part-time Criminal Justice Instructor/ Senior Lecturer with Pierce Community College and Saint Martin's College. I have known Jeff for about 2 years, as he has attended quite a few of my criminal justice classes. During those classes, I evaluated his academic abilities and accomplishments, and his personal demeanor.

Unequivocally, Jeff was always in the top 10% of every class he took from me. He easily grasped even the most technical and complicated criminal justice and forensic concepts, procedures, and theoretical applications as though they were second nature. In addition to his proven academic accomplishments, Jeff was an informal class leader. His maturity, sense of purpose, dedication, work ethic and "walking-around sense" made him the type of student others would look to for assistance, explanation, or mentoring. At times, it was like having a second instructor in the class.

I unhesitatingly recommend Jeff for any position of trust, managerial or otherwise, for which he has applied with your organization. He is a top-notch person with enviable academic performance and unlimited potential in law enforcement and related security fields. As a supervisory special agent, I would immediately hire Jeff into any organization I headed.

If you desire more background information, you may reach me at my home telephone listed above, or my work telephone, (253) 967-2228.

Sincerely,

Michael J. Bosse
